## SUMMARY

- Highly skilled and results-oriented **Software Developer** with strong knowledge of developing, and maintaining complex software applications. Proven ability to deliver high-quality code on time. Proficient in Javascript and various relational databases.

## EXPERIENCE

### Front End Developer

Parkqwik Private Limited

April 2024 - October 2024, chennai

- Developed and maintained a mobile application using React Native, improving app performance by 25%.
- Collaborated with the backend team to integrate APIs efficiently, resulting in a 15% reduction in data retrieval times and increasing user satisfaction by 20%.
- Gained experience using Expo Go and Android Emulator platforms to preview and test the project, ensuring consistent performance across devices.

### Full Stack Intern

SSRTC |INTERNSHIP

January 2023 - July 2023, Papanasam

- Proficient in HTML, CSS, and JavaScript for creating interactive and responsive web interfaces, Strong understanding of Java programming language and its core concepts.
- Competent in working with relational databases such as MySQL.
- Ability to design, optimize, and manage database schemas, and perform complex queries.

### Web Developer Intern

SD Pro Solutions pvt ltd

January 2023 - February 2023, Trichy

- As a Web Development Intern, I gained hands-on experience in designing, developing, and maintaining web applications.
- During my internship, I discuss problem with senior developers and cross-functional teams to deliver high-quality web solutions.
- This role allowed me to enhance my technical skills, understanding of web technologies, and problem-solving abilities in a professional environment.

## PROJECTS

### PERSONAL PORTFOLIO

January 2024 - February 2024

- A Personal Portfolio Website built using the HTML,CSS, Bootstrap framework a modern and JavaScript, responsive, and visually appealing platform to showcase my work, skills, achievements, and experiences.

### PLASMA DONOR APPLICATION

IBM • December 2022 - February 2023

- Designed and built a user-friendly web application to streamline the PLASMA donor application process.
- Real-time feedback: Providing immediate messages to users as they interact with the application (e.g., informing them if a field blank).
- Applied front-end skills to enhance user experience, facilitating efficient matching of donors with recipients.
